

OUR PHILOSOPHY

We are proud of what we do

Stoelting has earned a strong reputation as a top manufacturer of foodservice equipment, which is a reflection of our state-of-the-art engineering, uncompromising quality, and dedicated employees. We attribute our longevity to the quality, dependability, and performance of our equipment, along with an experienced sales & customer support staff, backed by Stoelting's outstanding warranty.

We are part of the Vollrath family, based in Sheboygan, Wisconsin. At Vollrath, we advance the art of hospitality with a full line of products and services that make you more efficient, more inspired, and ultimately more profitable. By elevating your offering and streamlining your operations, we increase your ability to compete and thrive.

The frozen treat business?

It's all about putting smiles on people's faces. But it's also a battle every day.

As an owner or operator, you face ever-rising costs. Slimmer margins. And new competitors that seem to pop up without warning. Success hinges on your ability to outperform last year's numbers—and even last week's.

Choosing the right frozen treat equipment has never been more important. But how do you choose wisely when every manufacturer seems to be making the same claims about their equipment?

Simple. Start by talking to owners and operators who switched to Stoelting after using any other machine. They'll tell you how they've come to count on Stoelting machines to outperform those of other manufacturers. Then they'll point to the very real attributes that set our equipment apart.

From smiling customers to a better bottom-line, there's a lot riding on the performance of your frozen treat equipment. Which is why so many owners and operators count on Stoelting to help them outperform every day.

PREMIUM GRADE PRODUCT CONSISTENCY

Where other machines sputter and slow down, Stoelting equipment maintains superior product consistency and output—from the first scoop, pull or pour to the last.

AN UNMATCHED WARRANTY

Others warranty their equipment for a year, maybe two. Stoelting stands by you with an industry-leading, five-year warranty on our drive train, auger and other major components.

REMARKABLE MACHINE FLEXIBILITY

Store operators enhance their menus without adding cost by using equipment like our F231: a single machine that produces soft serve ice cream, yogurt or smoothies.

TECHNOLOGY THAT MAKES A BOTTOM-LINE IMPACT

Stoelting's Connect2U is easy-to-use, web-based technology that minimizes machine downtime by instantly diagnosing needed maintenance or repairs.

LOWER TOTAL COST

Stoelting's competitively priced equipment and low cost of ownership provide substantial savings over the life of the machine to the owners and operators.

STABILITY THAT INSTILLS CONFIDENCE

Stoelting machines are made by people who share the Midwestern work ethic that has been the heart of our company since 1905. As part of The Vollrath Company, Stoelting has the stability to invest in ongoing engineering, technology and performance advancements.
